

Setra UK PIB RF500A - Clear the E-mail Queue

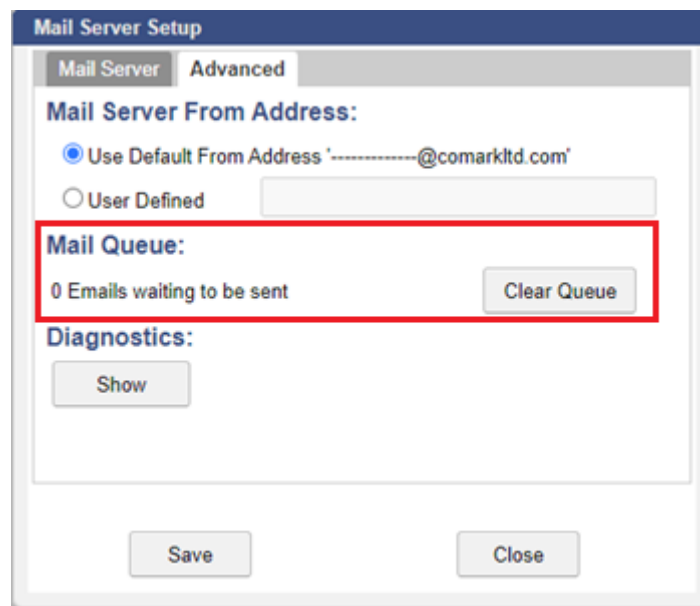

Issue 1 – 09/08/2023

Instructions for clearing your E-mail Queue

If requested to check/clear your E-mail Queue from the Gateway, please follow these instructions...

Log on to the Gateway and navigate to **Administration – System Settings – Mail System**

Click on the Advanced Tab and check to see how many e-mails are in the Queue....

The screenshot shows the 'Mail Server Setup' window with the 'Advanced' tab selected. The 'Mail Server From Address' section has two radio buttons: 'Use Default From Address' (selected) and 'User Defined'. Below this, the 'Mail Queue' section is highlighted with a red box, showing '0 Emails waiting to be sent' and a 'Clear Queue' button. The 'Diagnostics' section has a 'Show' button. At the bottom are 'Save' and 'Close' buttons.

If there are a high number of e-mails in the Queue, greater than 10, then please clear the Queue with the Clear Queue button.

Thank you,

Andy
